To Whom It May Concern:

This is a letter of recommendation for Mike Pendergraft, President of American Valet Company, Phoenix, Arizona. This letter commends American Valet Company for its excellent services provided for many years at the FBR Open. The staff was well organized, competent and very effective. Mike Pendergraft's vast knowledge and past experience at the tournament site ensured that our VIP/valet patrons had an excellent worry free parking experience at the FBR Open.

American Valet Company excelled in all areas of customer service. Their staff was very visible, helpful and committed to serving the Thunderbird organization at the Valley's largest golf tournament.

I recommend American Valet Company to any organization that requires professional assistance in managing the valet parking needs – simple to complex. American Valet Company can certainly handle the contract!

Best regards,

John Bridger  
Executive Director
