RE: Open House  
American Barcode and RFID

Dear Meagan McLaughlin,

All of us on the Open House committee and the American Barcode family would like to thank you and your staff for helping to make our first event in our new facility a smashing success.

Jeremy and Kevin were totally professional in performance and appearance. They did an exceptionally good job and received many compliments. We truly enjoyed having them with us.

Many of our guests told us how polite and professional they were and they enjoyed them. And that they presented a class act for the event. They were the first people that our guests saw and the last, and they left wonderful lasting impressions on our guests and Vendors.

Should we have the need for this type of service again we will most assuredly call you and request Jeremy and Kevin.

We repeat our many thank yous for helping us to have a first rate and totally successful Open House.

Best Regards,

A handwritten signature in blue ink that reads "Mary Frances Norton". The signature is fluid and cursive, with a long horizontal stroke at the end.
