Dear Mr. Pendergraft:

We at Mayo Clinic wish to express special thanks to you and your team for the valuable service you are providing by extending complimentary transportation services for our staff when they volunteer at the Veterans Memorial Coliseum in the relief efforts for Hurricane Katrina.

We recognize that traveling to our hospital from your offices, and transporting our employees down and back to the Coliseum, is no minor excursion.

We are proud of our generous employees, of course, who are stepping up to help the evacuees with medical care and other support. But we are equally impressed with the generosity of our business partners who share our commitment to the community.

You exemplify that commitment and we are very appreciative.

Again, thanks on behalf of Mayo Clinic.

Sincerely,

Victor F. Trastek, M.D.
